

Criteria for Obtaining Funding for Travel to WAC-10

WAC-10 is committed to providing partial travel support for around 400 eligible participants. Indigenous/First Nation peoples, students and people from reduced rate countries* are eligible to apply for travel support. This support is not available to people who can access other forms of support (university, corporate, business), so we can deploy the funds to those who would not be able to attend otherwise. WAC-10 encourages participants who address issues corresponding with WAC principles, archaeological ethics and the role of archaeology in a changing world. This will apply when the committee needs to choose from a pool of candidates with the same marks.

Essential Criteria

- Being a member of WAC for four years or taking out a four-year membership of WAC. Non-members can apply for travel funding. If they are offered funding it will be subject to them taking out a four-year membership of WAC.
